

NextBuses is the great new way to get bus times on your internet enabled mobile smartphone.

To use NextBuses, just follow these three simple steps:

- 1 Open the internet on your phone and enter the web address: [nextbuses.mobi](http://nextbuses.mobi)

Or, you can text the word 'traveline' to 84268 and we'll send you a link to the NextBuses website.

- 2 Once you're on the NextBuses homepage, either a postcode, a street, town or the bus stop code you'll find on each timetable display at your stop.

- 3 Click on your stop from the results list. Don't forget to choose the bus stop on the correct side of the road! You can use the links shown on the screen to look at more places on the map. If you've entered a location and can't find your bus stop, try searching by postcode. With some practice, you'll quickly arrive at a list of buses from your stop. If you click on a service number, you'll see a longer list of bus times for just that route.

You can bookmark the page so, in future, your bus times will be just one click away!
